

# **ABC Strategic Plan 2006-2010**

## **Mission**

ABC promotes healthy and safe environments by advancing the science, principles, practice of our industry

## **Vision 2015**

ABC continues to be a catalyst in growing a global community of professionals improving the quality of life.

## **Core Values**

- Prevention of occupational illness and injury is the foundation of the profession.
- Workers and communities have a right to a healthy and safe environment.
- Active collaboration among professionals is essential for ensuring that safe and healthy environments are provided for all workers and communities.
- ABC will advocate for policy development.
- ABC's Board of Directors, volunteers, members, and staff conduct the business of the Association with respect for diversity of opinion and encourage open communication.
