This award recognizes a single individual architectural educator for outstanding educational contributions.

History

In 1985, Edward J. Romieniec, an architecture professor at the Texas A&M University College of Architecture, received the Texas Society of Architects Award for Excellence in Architectural Education. It was the first such award to be presented. The award recognized Romieniec — who served as dean of the College of Architecture at Texas A&M from its inception in 1969 until he returned to a faculty post in 1973 — for inspiring others to excellence in architecture, and for his “exceptional ability to maintain relevance by directing students toward the future while drawing on the past.”

Romieniec was a lifelong advocate of educational travel and study abroad programs. As such, he established the Edward J. Romieniec Graduate Traveling Fellowship in the College of Architecture, which funds the travel of first-year architecture graduate students to destinations abroad. In Romieniec’s honor, one of his former students, Ronald L. Skaggs, Class of 1965, established the Edward J. Romieniec, FAIA Endowed Scholarship for outstanding architecture students. Romieniec’s legacy remains very much alive — in the lives and careers he mentored, and in the classrooms where his old colleagues are still passing on his wisdom to a new generation.

He was also the first licensed African American architect in the state of Texas, and the first African American to be admitted to the Texas Society of Architects.

When faced with discrimination from white firms, Chase founded his own firm, both to have an opportunity to shape public spaces, and to create opportunities for other black drafters, engineers, and architects. Nominees cannot be eligible for Architect, Associate, or Emeritus member status in the AIA. Component staff who have served on staff for a period of at least 10 years are eligible for this award.

Nomination

Nomination must be made by a local AIA component.

A selected recipient must be informed of his or her nomination for honorary membership before the name is submitted to the Board of Directors, and the board will be advised of notice.

Criteria

Criteria for selection are based on the Bylaws of the Texas Society of Architects.

- » Recipients must be individuals of esteemed character who have rendered the profession of architecture significant and valuable service within the state of Texas.
- » They have conspicuously upheld the mission of the Texas Society of Architects.
- » The age, personality, and/or popularity of the nominee do not, of themselves, constitute a notable contribution, and honorary membership is not an award for the nominee's industry or success.

Submittal

The submission should include the following materials:

- » A completed 2022 Nomination Form.
- » A one-page nomination letter written by the nominating component summarizing the nominee's contributions and fit to the criteria above.
- » A biography of the nominee, including professional history, positions held, honors, publications, and activities that may relate to the purpose of the award (not to exceed four pages).
- » A maximum of eight pages of exhibits and images that demonstrate the accomplishments or effect of the nominee's contributions.
- » Up to five one-page letters of support. The majority of the letters must be from individuals outside the architectural profession.
- » A photograph of the nominee.

25-Year Award

Each year, the Texas Society of Architects 25-Year Award recognizes a built architectural project of enduring significance that has withstood the test of time by retaining its central form, character, and overall architectural integrity.

History

TxA's 25-Year Award is an important public outreach program that focuses much-deserved attention on distinguished Texas architecture of enduring significance that exemplifies the Society's intrinsic message that "Good Design Matters."

Eligibility

Individual structures, as well as groups of structures, that were completed 25 to 50 years prior to the date of nomination and have stood the test of time are eligible.

Nomination

Nomination may be made by a local AIA component or member. All TxA components and members are invited to submit nominations for the 25-Year Award.

Past nominations may be resubmitted any number of times with a current Nomination Form, provided they still meet the stipulated timeframe for project completion. If previous submittals contained fewer than the minimum required documents listed in this year's instructions, these documents must be added.

Criteria

- » The nominated project must be located in the state of Texas, but it need not have been designed by an architect licensed in Texas.
- » The project must have been completed 25 to 50 years prior to the date of nomination.
- » It should be in good condition and not substantially altered from its original finished condition. Changes of use from the original purpose of the project are permitted.
- » The project must exhibit ongoing excellence in design and placemaking.
- » The project must have had a significant impact over its 25+year life.

Submittal

The submission should include the following materials, in the order listed, in a single PDF file:

- » A completed 2022 Nomination Form.
- » A one-page nomination letter written by the nominating component or member that summarizes the project's fit to the criteria above.
- » At least one image that depicts the project shortly after its completion.
- » At least one image that depicts the project within one year prior to its nomination.
- » Other archival materials (e.g., newspaper clippings) that support its architectural significance.
- » Information on the design architect and other members of the project team.
