This award recognizes a single individual architectural educator for outstanding educational contributions.

### **History**

In 1985, Edward J. Romieniec, an architecture professor at the Texas A&M University College of Architecture, received the Texas Society of Architects Award for Excellence in Architectural Education. Romieniec was a lifelong advocate of educational travel and study abroad programs. As such, he established the Edward J. In Romieniec’s honor, one of his former students, Ronald L. Skaggs, Class of 1965, established the Edward J. Romieniec, FAIA Endowed Scholarship for outstanding architecture students. He was also the first licensed African American architect in the state of Texas, and the first African American to be admitted to the Texas Society of Architects.

When faced with discrimination from white firms, Chase founded his own firm, both to have an opportunity to shape public spaces, and to create opportunities for other black drafters, engineers, and architects. ## Honorary Membership

---

Honorary Membership in the Texas Society of Architects is one of the highest honors the Society can bestow upon a person outside the profession of architecture. It is awarded to individuals for their long-term association with architects, architecture, or allied professions in providing a better quality of life in Texas. Honorary Membership is awarded for the nominee's accomplishments, which are truly outstanding and deserving of statewide recognition.

### History

This award was created in 1971 in recognition of the important contributions that those outside the architectural profession make to the profession and to architecture in Texas.

### Eligibility

Nominees cannot be eligible for Architect, Associate, or Emeritus member status in the AIA. Component staff who have served on staff for a period of at least 10 years are eligible for this award.

### Nomination

Nomination must be made by a local AIA component.

A selected recipient must be informed of his or her nomination for honorary membership before the name is submitted to the Board of Directors, and the board will be advised of notice.

### Criteria

Criteria for selection are based on the Bylaws of the Texas Society of Architects.

- » Recipients must be individuals of esteemed character who have rendered the profession of architecture significant and valuable service within the state of Texas.
- » They have conspicuously upheld the mission of the Texas Society of Architects.
- » The age, personality, and/or popularity of the nominee do not, of themselves, constitute a notable contribution, and honorary membership is not an award for the nominee's industry or success.

### Submittal

The submission should include the following materials, in the order listed, in a single PDF file, as well as a separate high-resolution photograph of the nominee as a JPEG or TIFF file.

- » A completed 2023 Nomination Form.
- » A one-page nomination letter written by the nominating component summarizing the nominee's contributions and fit to the criteria above.
- » A biography of the nominee, including professional history, positions held, honors, publications, and activities that may relate to the purpose of the award (not to exceed four pages).
- » A maximum of eight pages of exhibits and images that demonstrate the accomplishments or effect of the nominee's contributions.
- » Up to five one-page letters of support. The majority of the letters must be from individuals outside the architectural profession.
